About Us

Erskine Green Training Institute's (EGTI) programming is designed for individuals whose academic, social, communication, and adaptive skills are affected due to a disability. Students must be out of high school and 18 years of age or older. EGTI students earn a certification in their area of training. Depending on the training program, some students may earn an industry-recognized certification.

Locations

EGTI offers training in Muncie and Indianapolis. Please refer to EGTI's website for details on training programs offered at each location.
EGTI Muncie offers a residential option for students to live on-site at the Courtyard Muncie throughout their training program. EGTI Indy is a commuter program.

Erskine Green Training Institute, founded by The Arc of Indiana in 2015, provides people with disabilities postsecondary vocational training that leads to meaningful employment.

Manufacturing:

- Assembly

Tuition and Fees

For a complete list of training program fees, please visit EGTI's website.

Student Life

Students attending a training program at EGTI Muncie have the opportunity to live on-site. Although students who live nearby have the option to commute, over 97% of the students who attend EGTI Muncie live on-site where EGTI staff is available during the evening and weekend to support students in gaining social skills and increased independence. Activities include dining out with other students, trips to the mall, enjoying events at Ball State University, movies, game nights, and more.

Career Sampling Sessions

During a Career Sampling Session, prospective students have the opportunity to learn about each training program and perform portions of each job. This assists EGTI staff and prospective students in determining which training program is the right fit for them. Dates and registration can be found on EGTI's website.

General Tours

General Tours at EGTI Muncie are provided monthly for prospective students, families, educators, VR counselors, employment consultants, case managers, and other service providers. The visit includes a walking tour of the facility and a presentation about programming. Virtual presentations about both EGTI Indy and EGTI Muncie are also offered monthly. Dates and information to register can be found on EGTI's website.
